

Course GS-07 PHOTOGRAPHY: THEORY AND TECHNIC
(45 horas lectivas)

Introduction:

This unit combines a theoretical and practical approach to contemporary photography, paying special attention to Spanish photography.

Using slide presentations and group discussion, we will outline an itinerary throughout the main movements in the history of the medium and its evolution until today.

There will be practical exercises about each of the genres discussed. The tutor will supervise and co-edit during the course every single student final project.

Aims:

- Develop technical and photographic skills.
- Foster an analytic approach to contemporary images
- Understand the possibilities of photography as a way of expression and information.
- Develop the student knowledge of photography's history.
- Improve social and workgroup skills.

Methodology

The classes are based in a participative method which fosters a proactive role among students, through activities such as debates and group analysis on a number of subjects such as history, aesthetic principles, main authors, etc...
