Introduction Letter

Centro MundoLengua is a private international school and educational tour operator established in 2005 by three persons: Yaye Baena (Spain), Stefanie Kempf (Switzerland), and David Hirsch (United States).

We work in conjunction with middle schools and high schools throughout the world in order to develop total Spanish immersion programs. These programs consist of Spanish language, housing with Spanish families, cultural and social activities, and sport and educational tours. Schools may also design their own tour without classes. Additional opportunities include school and soccer exchanges, as well as volunteer opportunities.

Student health and safety are our top priority. We take care of peace-of-mind components, such as medical insurance coverage and 24-hour emergency support.

By studying abroad with **Centro MundoLengua**, the students will be immersed by a total Spanish language environment throughout the entire stay and will enhance dramatically their Spanish speaking, writing and oral skills! Furthermore, they get to know a new culture and see the world from another perspective. The students discover a new country and adapt to new traditions. All this helps the students to gain autonomy and improves their chances in the employment market in the future.

The staff of **Centro MundoLengua** is incredibly passionate about their work. They genuinely want to see each and every student succeed with the language and have an unforgettable experience. We have a vested interest in making sure everything works out as promised.

Centro MundoLengua is headquartered in Seville and counts on a full-time staff of ten professionals, along with state-of-the-art classrooms in the center of the city, minutes away from the Cathedral. We also maintain a presence in the coastal city of Cadiz, with offices and classrooms at the Colegio Salesianos. Furthermore, we offer programs in the capital Madrid and in all of Spain, according to each group's preferences.

We are a team of young, multilingual professionals with experience in studying abroad and a true passion for our job. Apart from our rigorous academic standards, we provide personalized services to all of our students.

We invite you to discover more about our programs and services.

Host families have worked with us for many years, and are all carefully chosen and visited by our housing director. It is the best way to get to know Spanish culture and see what daily life is like for a native Spaniard. Secondly, our host families will speak to you in Spanish 100% of the time, helping you practice the skills you're working on in class in real-life situations. They are very patient in this regard, even with beginners.

Centro MundoLengua provides a wide variety of social, cultural, and sporting activities for students. Some examples include tapas nights, cultural visits, flamenco classes, Spanish cooking classes, language exchange with Spaniards, surfing, golfing, scavenger hunts, bicycling tours, soccer games, etc.

"Since 2007, I have traveled to Seville with my students through the perfectly organized MundoLengua program: The team is genuine and offers rigor and enthusiasm in everything that they do, whether it be the pedagogy, the cultural tours, or the various other experiences they offer. The host families (my students always cry when they have to leave), the dynamic classes and their incredible level of organization allow students to take advantage of the best Seville and Spain have to offer. During my travels to Seville with my students through the MundoLengua program I have made some of my fondest life memories!".

"I had the time of my life in Madrid, all thanks to Centro Mundolengua. I feel like I learned more Spanish in one week than in all my years of studying Spanish in school. We had so many engaging activities, and we really got to see Madrid for the beautiful city it really is. I cannot thank them enough for this amazing trip."

Other cities

City slickers, sea enthusiasts, art lovers, foodies, history geeks... Spain has something to offer for everyone! This is one of the best countries of the world thanks to its all round aspect of great food, people, art, culture and architecture. Are you a chaperone teacher? We will help you design a program in the location that meets all of your criteria.

"I have known many of the administrators for MundoLengua since its inception 10 years ago and, as a Spanish teacher with a particular passion for the Iberian Peninsula, I could not be more grateful to each of them for so thoughtfully and meticulously developing the MundoLengua curriculum. From their comprehensive treatment of the academic aspect of language learning to the cultural activities they develop to the invaluable relationships they maintain with the families with whom they work, MundoLengua is my "go to" experience abroad. They are personable, incredibly professional and a true joy to work with. All of my high school students who have participated in the MundoLengua program have loved their time in Spain, have returned with a greater appreciation for the Spanish culture and language and are anxious to return in the college years. Thank you MundoLengua for being an incredible extension of the language classroom for me and my students. Sois los mejores!!"

"As a student that went through the program summer of my junior year, not only did I experience one of the best pre-class of my high school career, I was able to experience the word most likely would not have visited in the way that visited. Not only did I improve in the Spanish language, I learned more about culture and history than I could imagine. The trip was not only a safe one but also a fun one. I recommend that people go to Seville because the tours youth activities in the afternoons were fantastic. I wish I could work with a group like this while in college."

"I definitely felt that my Spanish reached new heights after being in the Mundolengua program. At first, being with a host family and speaking Spanish virtually all the time was intimidating and awkward, but I soon found it to be an invaluable learning experience. I began to feel comfortable conversing with my family, and even with strangers I had met on the street. I know my Spanish wouldn't be at the same level as it is now and I wouldn't be considering studying Spanish seriously in college if it weren't for my trip to Spain and being a part of the Mundolengua program."

"Centro MundoLengua gave me the opportunity to learn how Spanish is spoken outside an American high school classroom. My host mom was the most amazing person. "As a D1 Student-Athlete, I never thought studying abroad would be in my College journey but Centro Mundolengua made it all possible and then some! I truly found love for the Spanish language, people, and the rich culture. Everything about my stay in Spain was incredible. My host family was as charming as you would hope for and very accommodating. Classes were something I looked forward to due to some of the best Professors I've ever had in my college career (Laura, Macarena, Inma, Cati, y Teresa). All of the excursions planned by Mundolengua were informative while adventurous. But what really hit home was the immense amount of passion, care, and thought from the staff of Centro Mundolengua. I would recommend to any one and ESPECIALLY student-athletes looking for an authentic study-abroad journey that you do it here, with Centro Mundolengua."

"It was interesting to see the life of a high school student in another country. Spanish students spend much more time together and in the streets. It is much different in the United States. In the U.S, after school, a student would either play sports or go home to do homework."

Rajat A. * Haverford School.

Community Service Program

You have the opportunity to engage with the community through volunteer work. This is an excellent manner to fulfill community service requirements at home, while helping others and learning about the culture of Spain. Some examples of the volunteer work available for high school students include:

- Helping to feed the needy, painting the houses of people with poor economic possibilities, and sorting material.
- Helping troubled and marginalized youth (immigrants, Gypsies, etc.) through sports, arts, handicrafts, educational support, English classes, and dance.
- Assisting older people with physical and mental disabilities.
- Preparing /serving lunch and clearing the tables in a food center for people with poor economic possibilities.
- Taking care of babies between 2 and 4 years old.

"We have traveled with Centro Mundo Lengua since 2008 and they adjusted with us as we have grown as a group!! There is always something unique and exciting for the students and they are well taken care of. If you are thinking about a true "hands-on" experience that your students will love- check them out! Accommodation

We can organise your accommodation and offer a wide array of different kinds of accommodation. However, our students usually live with a Spanish family to experience a full immersion adventure.

Spanish host family

We carefully select each family, with an extensive screening process. Our housing director personally visits all of our homes. She also interviews each family member and keeps a written record on each family with past student comments.

Students fill out two complete evaluations of their families, in order to be able to address any concerns. All of our families are within walking distance of our school, or a short public bus/subway ride away.

- Full stay/3 daily meals
- Laundry service once a week
- Carefully selected families
- Individual or double rooms
- Located close to our centers
- This option helps you assimilate to Spanish cultural norms and way of life

Advantages:

- Discover the true Spanish culture
- Experience daily Spanish life
- Perfect your Spanish
- Try homemade Spanish dishes

Residence

Residences are available for group programs as well as for individual students participating in the Pre-AP / Spanish language and culture program in Madrid.

Advantages:

- The residence halls (near the school) allow the group to stay together
- Enjoy an independent way of life
- Make new friends while living with Spaniards and other foreigners
- Autonomy over your schedule

Bed and Breakfast or Hotel (This option is only available for school groups)

Staying in a hotel will often be a more expensive way to travel than staying in a Spanish family.

Advantages:

- For short stays
- Enjoy an independent way of life
- Room services
- Enjoy the comfort of your bed and breakfast / hotel and choose your services
